### Step One

Orient the Seat Cover with the quilting toward the front of the seat. Slip the opening in the cover over the seat back and pull the cover down to the seat bottom.

### Step Two

Locate the flap sewn to the inside of the cover at the corner between the seat back and the seat bottom. Tuck the thick end of the flap as far as possible into the space between the seat back and the seat bottom.

### Step Three

Slide the cover over the seat bottom and fasten the hook and loop strips at the rear corners to each other. If necessary for a smooth fit, tighten the cord on the bottom of the cover and tuck in any loose fabric.

#### To Adjust Cord Length

**Note:** On the driver's side seat, make sure that the fabric is tucked behind the seat adjustment lever and that the lever is clear to operate freely.

**To Fasten Hooks**

Slip the two hooks together at right angles to each other.

Turn one hook until they hook to each other.

To secure the hooks, pull them against each other until they click into position.

**To Release Hooks:** Turn one hook until it is at right angles to the other and pull apart.
